System Analytics Inc. Awarded GSA Schedule 70 Contract for Information Technology Services

May 22, 2012; Bethesda, MD

System Analytics Inc., today announced that the Firm has been awarded the U.S. General Services Administration (GSA) Information Technology (IT) Schedule 70 contract #GS-35F-0419Y. The GSA Schedule 70 contract provides government agencies with a streamlined vehicle to purchase IT products and services from commercial firms that are capable of addressing the growing information technology needs and requirements of U.S. federal, state, and local government agencies.

System Analytics Inc. today announced that the Firm has been awarded the U.S. General Services Administration (GSA) Information Technology (IT) Schedule 70 contract #GS-35F-0419Y. The GSA Schedule 70 contract provides government agencies with a streamlined vehicle to purchase IT products and services from commercial firms that are capable of addressing the growing information technology needs and requirements of U.S. federal, state, and local government agencies. The IT Schedule 70 is the largest GSA procurement vehicle and serves as the government's "one-stop shop" for virtually any information technology equipment, software, or services.

System Analytics Inc. Provides Information Technology services to the Department of Homeland Security (DHS) including the Immigration and Customs Enforcement (ICE) and Citizenship and Immigration Services (CIS) said David Siegel President and CEO of System Analytics Inc. "This five-year GSA schedule award will allow System Analytics Inc. and its partners to expand our IT services portfolio to new customers while providing government agencies with streamlined access to our Firm's services. The GSA Schedule 70 award represents a significant milestone for System Analytics Inc. and will serve as a catalyst as we expand service offerings and our client base, and accelerate our Firm's growth."

The GSA Schedule 70 contract will enable System Analytics Inc. to efficiently market its portfolio of Information Technology services directly to U.S. federal, state, and local government agencies with pre-negotiated terms and pricing agreements that are designed to streamline the procurement process and deliver the best value to government agencies.
